ELITE
GROUP OF COMPANIES

A member of Elite Group of Companies

The Plant

United Powder Coating counts over a horizontal powder coating line with the below details:

Powder Coating	Model	Capacity (MT/Year)	Profiles Length (mtr)	Coating Thick (µm)	Specification
Line 1	Horizontal	6.000	1-7,5	60-120	BS 6496 Qualicoat

The horizontal process offer the chance to reach longer profiles size for finishing and more coating uniformity on the profile surface itself. It houses a state of art laboratory as well, for control and end to end testing of the finishing products.

Products treated:

- Architectural profiles (exterior & interior design)
- Industrial profiles
- Advertisement & signage profiles
- Scaffolding & formwork profiles
- Special customized finished profiles

Sticker of quality

United Powder Coating is on process to achieve the ISO standard certification for quality management, to level as sister companies in Elite Group.

The unit is one of the first applicator for powder coating in the north Emirates and the coating it's according to BS 6496 specification.

The most common RAL are processed such as 9010, 9016, 1015 and 9006 as well as some more rare such as 8003, 8004 and 8017.

However all shades colors are available upon request.

Company Profile

United Powder Coating (UPC) is the Elite Group subsidiary specialized in powder coating of architectural and non-architectural aluminum profiles in order to add more support and capacity for the finishing service offered by Elite.

The Company its located in Hamriyah Free Zone, Sharjah, United Arab Emirates and it is incorporated in Elite group since 2008.

It's a long-standing company able to cope in the market for the aluminum coating demand. At the same time it is recognized the support given in Elite group to the mill finish extrusion, by providing the powder coating finish and add strength to the group.
